

WHATS NEW AT SPRING! SUMMER EDITION

Welcome to our Summer edition newsletter. We have all been working extremely hard behind the scenes to ensure we stay on top of an ever growing industry, bringing you the latest, up to date, information and treatment news. We hope you are all loving the developments within the salon as much as we are!! Thank you to you all for your continued support and we look forward to seeing you soon on your next visit.

The last couple of months have been as busy as ever, with lots of staff developments that we can't wait to share with you. May saw five members of the team heading off site for a date with Resusci Anne; undertaking First Aid training. We are all very pleased to say we passed with flying colours, but it is one qualification that we all hope we never have to use. May was a busy month for Teresa and Sarah J, who were given the opportunity to further understand and develop the skill of energy work, through the achievement of their Reiki 1 certificate. Teresa and Sarah are currently fine tuning their skills in order to allow progression to the next stage of training and ultimately look at the possibility of introducing Reiki therapy into the salon. We would love to hear your thoughts; is Reiki something you would like to see on the Spring Beauty Room treatment menu? June saw the return of the ELEMIS SKIN LAB to the salon. It has been four years since this State of the Art facial mapping technology has been at the salon, and it was as popular as ever!

Following our success in the application process of the BABTAC awards, both Sarah J and Brittany were invited to the headquarters in Gloucester to carry out a treatment under the watchful eye of a CIBTAC examiner. Their treatments were marked and graded against all the other successful candidates and both were named and placed as finalists in their category. On June 18th Teresa, Sarah and Brittany attended the awards ceremony at The Banking Hall in London. It was an amazing night and we are all very proud of our success; Brittany has been named as top four in her category of Brow Specialist, receiving congratulations and acknowledgements from CEO Karen Betts of High Definition Beauty. Sarah was successful in maintaining her title as 'Holistic Therapist of the Year' for a second year running, receiving her award from volunteer and representative of the 'Look Good Feel Better' charity. Although the salon was unsuccessful in reaching the final stage of the 'Large Salon' category, we are all delighted with its placing as semi- finalist.

LAVA Shells were introduced into the salon in November and we are so pleased to say they have been an absolute hit. Sarah J has been working hard to keep up with the amazing number of treatment requests for the 'UK's Hottest Massage'. We have taken your feedback on board and are aware that there are still a large number of you who would like to experience the treatment. With that in mind, we have Stacey lined up to complete the LAVA RELAX training at the beginning of July, hopefully opening up more opportunities for you all to receive this deeply relaxing massage.

Nail Art has gone to a whole new level in the salon, following the introduction of ArtPro Nail. This digital approach to nail design offers over 800 images for you to choose from, and if there isn't what you are looking for, you can send us an image of your own. This amazing treatment does require additional time on top of your manicure, so please let us know when booking if you wish to add this service. Prices start from £3 per nail.

What's new with ELEMIS?

Peptide Night Recovery Cream-Oil combines the hydration of a moisturising cream with the protection of an oil. Skin follows natural circadian rhythms which boosts night time skin renewal. ELEMIS peptide helps support this process, with Perilla Seed and Night Scented Stock oils leaving skin feeling rebalanced, restored and replenished. 98% of Independent User Trials agreed it was the best over-night treatment they have ever used.

Pro-Collagen Marine Oil has been formulated with a trio of seaweeds, Padina Pavonica, Golden seaweed and Roaring Water Kelp – to deliver maximum hydration, whilst reducing the appearance of fine lines and wrinkles. White Poppy Seed oil plumps the skin with moisture and leaves the complexion looking revitalised and radiant. 90% of Independent User Trials agreed that the skin was soft with a healthy, glowing appearance.

Dynamic Resurfacing Day Cream SPF30 gently resurfaces the skin by stimulating the natural cell renewal cycle. Skin appears naturally smoother and signs of skin ageing are reduced. The complexion appears more even, whilst feeling fresh, comfortable and hydrated all day. Formulated with a revolutionary encapsulated blend of sun cream offering a high level of Broad spectrum SPF protection, whilst maintaining the exceptional skin feel.
